From our heart to yours...

Thank you for choosing life and for reading about us today. We wish you comfort and peace as you follow your heart. We will forever honor and care for the mother who chooses our family. We embrace open adoption focused on the health and well being of all. We will rejoice greatly in discovering your child's unique personality, talents, and gifts and celebrating each milestone. We are grateful to live in a safe suburb with good schools. We value our faith and involvement in our church. We have a large extended family on the West Coast as well as the Midwest and seek to spend time with family as often as possible. We are passionate about raising up the next generation and will provide access to a wide variety of activities and opportunities for growth.
